

As the population ages, the incidence of vascular disease will continue to increase. The good news is that your patients do not have to travel far to find quality vascular care. At Nazareth Hospital Vascular Center, we combine advanced technology, minimally invasive surgical techniques, state-of-the-art post-surgical wound care and leading-edge clinical expertise to help you diagnose and treat a host of vascular conditions.

SCREENING & ACCURATE DIAGNOSIS: THE GATEWAY TO ADVANCED VASCULAR CARE

New screening and diagnostic techniques provide tools to identify and diagnose even the most subtle of symptoms. For patients needing evaluation, Nazareth Hospital Vascular Center offers a broad range of non-invasive testing including:

- 64-slice CT scanner
- Ankle-brachial index
- Carotid duplex scan
- Venous duplex scan
- Venous mapping
- Renal artery duplex
- Dialysis access imaging

MINIMALLY INVASIVE ENDOVASCULAR TECHNIQUES: SENSIBLE SURGICAL SOLUTIONS

Today, many patients can be treated with minimally invasive surgical techniques, including angioplasty, stenting, and atherectomy – all of which are part of the full range of vascular treatment options that Nazareth Hospital Vascular Center offers. For patients, especially the elderly and those with comorbidities, the benefits of endovascular surgery can be significant:

- Dramatically reduced recovery time
- Reduced risk of operative and postoperative complications
- Less pain
- Reduced scarring

WOUND HEALING: HIGH-TECH AND HIGH-TOUCH

Nazareth's commitment to comprehensive vascular health includes our Center for Wound Healing & Hyperbaric Medicine, where we use advanced and conventional techniques to help patients heal quickly and completely. We work with you to develop an individualized treatment plan for each patient. Care options include:

- Hyperbaric oxygen treatment
- Antibiotic therapy
- Physical therapy
- Education
- Nutrition
- And other techniques

PROACTIVE COMMUNICATION: OUR COMMITMENT TO PARTNERSHIP

Prompt, personalized communication is a fundamental part of our commitment to you. We provide the information you and your patients need, from descriptions of vascular problems to overviews of diagnostic procedures and treatments, to responsive scheduling services. At every step, we communicate with you and your patients so that even the most complex problems are effectively resolved.

CALL ON US

WHAT PHYSICIANS SAY ABOUT NAZARETH HOSPITAL VASCULAR CENTER?

"Nazareth Vascular Center has raised the bar on vascular care. Its highly qualified team has been able to salvage circulation in limbs of patients with some of the most difficult vascular disorders I've seen through the use of more sophisticated techniques and the use

of a wide range of treatment options – not only surgery but catheters, balloons, hyperbaric oxygen – has been a real eye opener into what can be done by a skilled practitioner with the right training."
